MAGA MINI CONFIGURATIONS

INTRODUCTION

The Maga Engineering® product portfolio allows, thanks to the versatility of its acoustic enclosures, to configure customized systems and offer, in each case, the ideal solution for those events with a smaller audience, also guaranteeing maximum sound quality.

These Maga Mini configurations are designed to offer a professional solution for events with a reduced audience, where the installation of a Line Array system is not necessary.

The Maga Mini configurations are built combining acoustic enclosures from the **SPOT (ME8S and ME8SA MKII)**, **WEDGE (ME12WAX and ME15WAX)** and **HORIZON (ME12Z)** series with subwoofer from the **SUB (ME115SND, ME115SNDX, ME115SNDA MKII and ME218FHA)** series. Thus, we can configure self-powered Maga Mini systems and passive Maga Mini systems, in which Powersoft® T™ Series external amplification is used.

Below we propose, by way of example, a series of systems that provide a high quality solution in countless situations: product presentations, exhibitions, conferences, meetings, courses, press conferences, DJ sessions, acoustic concerts, ...

For all the technical information on the acoustic enclosures included in the following configurations, we recommend that you consult the document “Product Catalogue”, which can be found on our website <https://magaengineering.com>

MAGA ENGINEERING

MAGA MINI ME8SA SYSTEM

MAGA MINI ME8SA SYSTEM

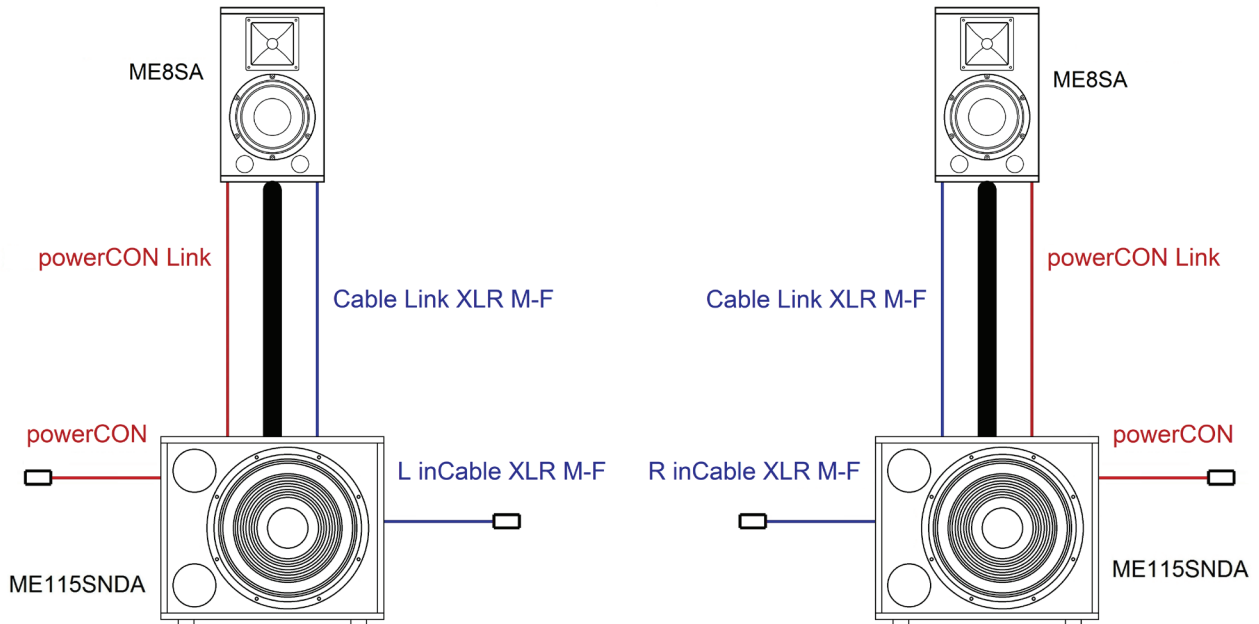

Layout: ME8SA staked on ME115SNDA Simple 15" Subwoofer by extension bar

Power: AES 2.200W

Amplification: Self-powered system

Configuration: 2 ME8SA Satellites + 2 ME115SNDA Simple 15" Subwoofers

Application: Indoors and Outdoors

MAGA MINI ME8S SYSTEM

MAGA MINI ME8S SYSTEM

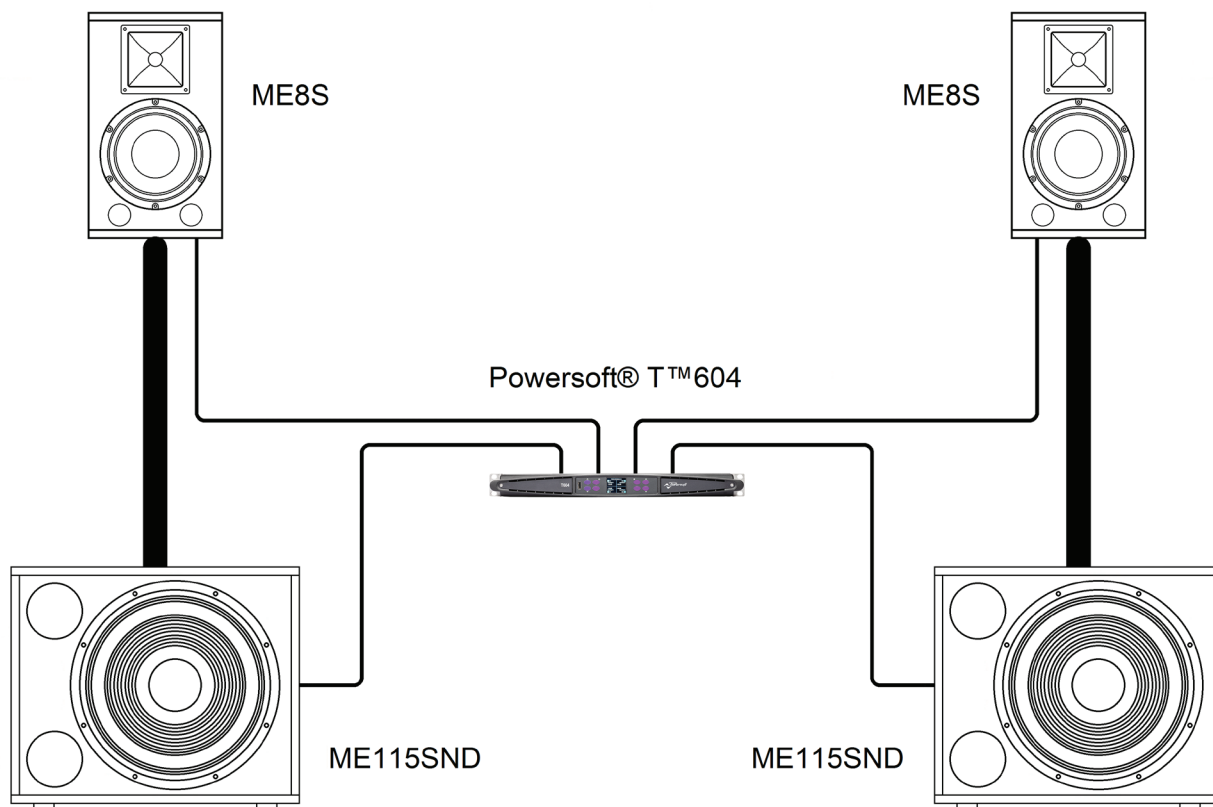

Layout: ME8S staked on ME115SND Simple 15" Subwoofer by extension bar

Power: AES 2.200W

Amplification: 1 Powersoft® T™604 Amplifier

Configuration: 2 ME8S Satellites + 2 ME115SND Simple 15" Subwoofers

Application: Indoors and Outdoors

MAGA MINI ME12WAX SYSTEM

MAGA MINI ME12WAX SYSTEM

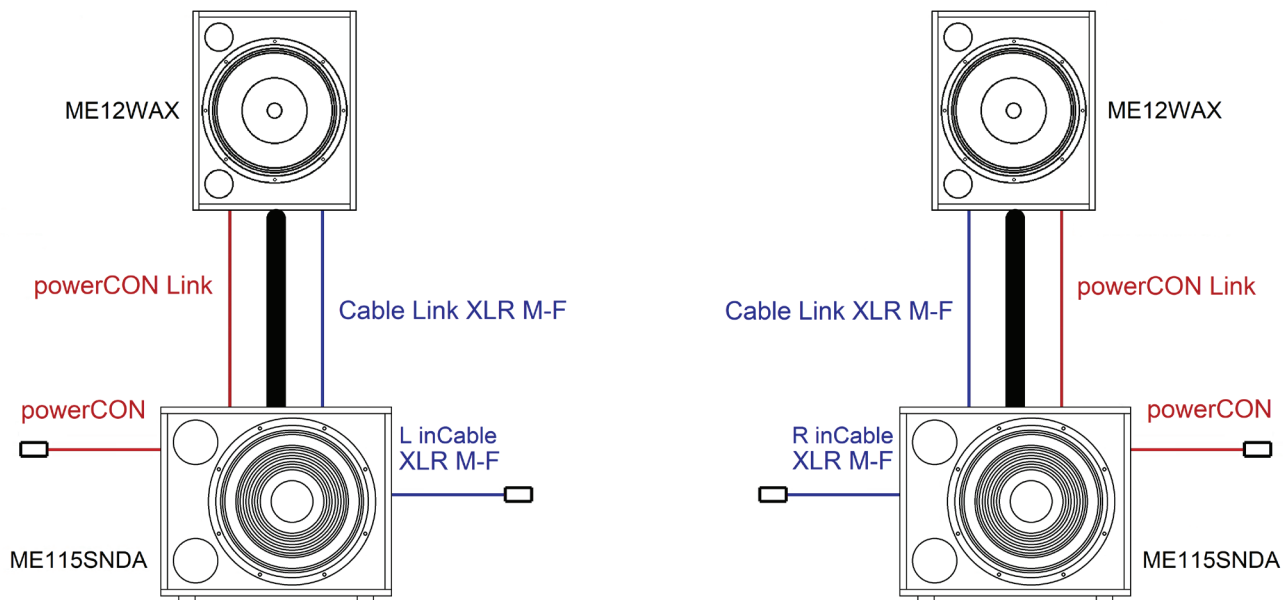

Layout: ME12WAX staked on ME115SNDA Simple 15" Subwoofer by extension bar

Power: AES 2.600W

Amplification: Self-powered system

Configuration: 2 ME12WAX Satellites + 2 ME115SNDA Simple 15" Subwoofers

Application: Indoors and Outdoors

MAGA MINI ME15WAX SYSTEM

MAGA MINI ME15WAX SYSTEM

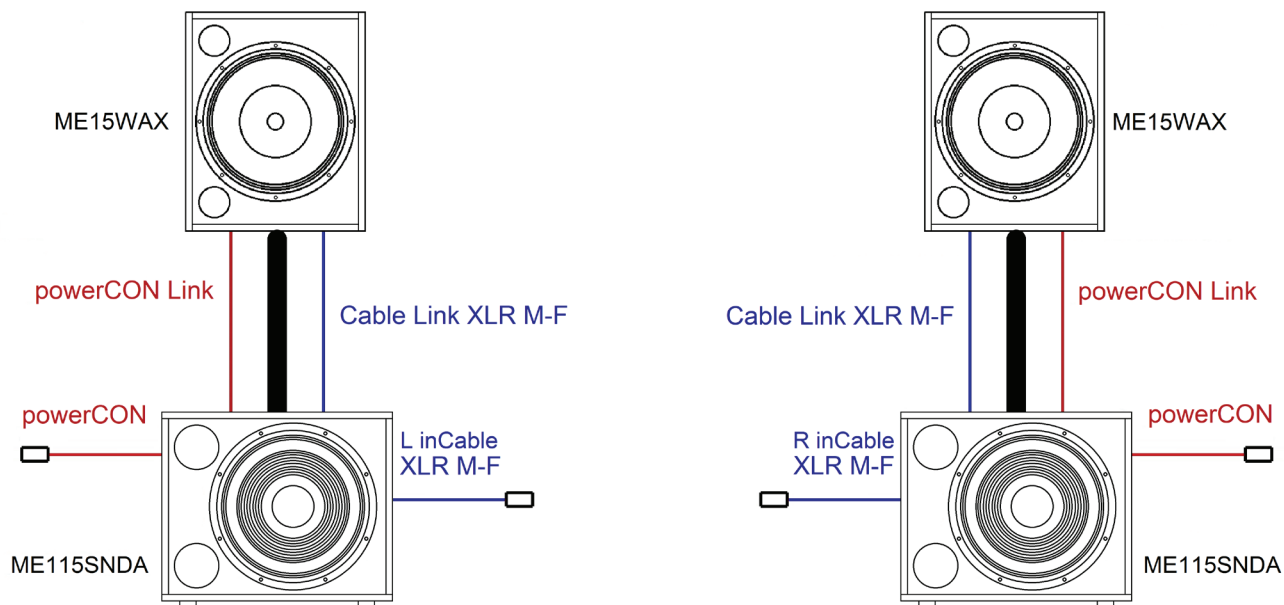

Layout: ME15WAX staked on ME115SNDA Simple 15" Subwoofer by extension bar

Power: AES 2.700W

Amplification: Self-powered system

Configuration: 2 ME15WAX Satellites + 2 ME115SNDA Simple 15" Subwoofers

Application: Indoors and Outdoors

MAGA MINI DJ SYSTEM

MAGA MINI DJ SYSTEM

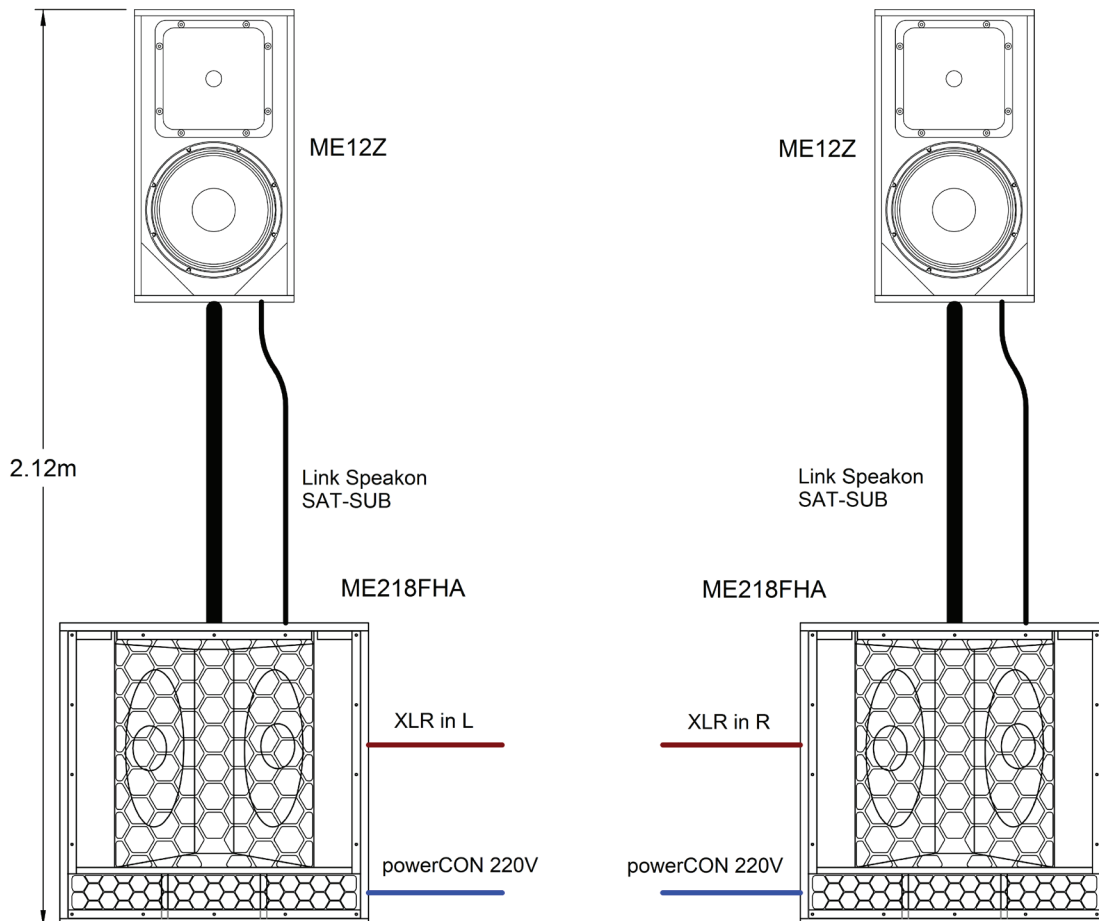

Layout: ME12Z staked on ME218FHA Dual 18" Subwoofer by extension bar

Power: AES 5,600W

Amplification: Self-powered system. 3,000W + 3,000W amplifier module integrated in each ME218FHA subwoofer

Configuration: 2 ME12Z Satellites + 2 ME218FHA Dual 18" Subwoofers

Application: Outdoors and Portable DJ System
